Instructions for creating the Tags.

Please follow my instructions carefully, as you will need all the left over bits of your print paper.

**Remember to ink the edges** of all the following pieces, except the black cardstock. Please note that I have not added any names, dates for any information to my tags. You will need to add your own personal details for each child to each tag.

From your “Baby Border” sheet of print paper, find the piece that has the blue kewpie dolls on it, cut it so it is about 9 inches long. Adhere it to your page about 1 ¼ inches up from the bottom of your tag and wrap the ends around to the back of your tag; they should nearly meet in the middle on the back of your tag. Cut a black mat 3 ¾ inches x 6 inches out of black and adhere it to your tag. Add a photo and title to finish your tag.

Cut a black mat 3 1/2 inches wide and 3 1/4 inches high. Cut a piece from your "Baby Border" print paper. I used the blue lace border. Cut it to 4 3/8 inches and adhere it to your tag about 1 inch down from the top of your tag. Now you can add your two squares to your tag. Punch two cardstock circles and two paper washers. Glue one circle and one washer together. Glue one each side at the top of your tag lining them up. Punch a hole through the washer and feed some ribbons through the hole and tie them with a knot. Add some photos to finish your tag.
